Minims pack
**An award
 winning design**

Unseal

Peel away the backing. Applicator, right way up, is in sterile, shaped retaining-pocket.

Twist

off the cap. It comes away easily. Nothing to cut, nothing to tear. Nozzle inside is factory-formed, precisely accurate, gives drop-by-drop or flow administration.

Second Generation
Minims
 out-date all other
 sterile single-dose
 eyedrops

Squeeze Discard

Solution is sterilized by autoclaving for 30 minutes at 116° C. No preservatives. No risk of preservative-allergy. Fully suitable for open-eye surgery.

Minims are single-dose, single-use eyedrops. They eliminate all risk of cross infection.
