DISPENSING OPTICIANS

OPTICIANS BY APPOINTMENT  
TO THE LATE  
QUEEN MARY

ENGLISH EDITION OF  
SJÖGREN'S VISUAL ACUITY  
TEST CARDS FOR  
CHILDREN  
(WASHABLE)

This well known Test devised by Dr. Sjögren of Sweden has not hitherto been obtainable in this Country for use at six metres, nor has it been obtainable in washable form.

With the co-operation of Dr. Sjögren, Hamblins have redrawn the "hands" to subtend the Snellen angle of one minute of arc at SIX METRES instead of five. In this new edition these six cards (6/36 to 6/6) are issued with WASHABLE SURFACES, almost a necessity for anything being constantly handled.

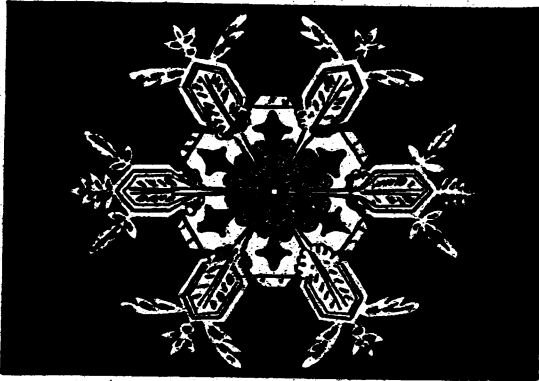

THE FIRST OPTICIAN  
IN WIGMORE STREET.

ESTABLISHED 1873

*Snowflake*

Only recently, snow was more a subject for bitter comment than for artistic interest. By now we can, perhaps, bring ourselves to forget the havoc that can be caused by snow in mass and pause to admire the delicate beauty of design that is wrought in every individual flake that falls.

This dress-clip Lorgnette must appeal to any lady. Soundly fashioned for practical use as an aid to vision it can be transformed, almost at a touch, into a piece of extremely attractive jewellery. Marcasite and pearl adornments add to the delicate beauty of design that is wrought into it.

*Dress-clip Lorgnette*
