"Complete protection" is the obvious aim of the angler here illustrated. Fishermen, we understand, prefer gloomy weather for their sport. Since they may rely on this often enough during most of the year let us hope the rest of us get the sunshine we need for our own activities this summer.

Complete protection, of a vastly different nature from that referred to above, is provided by the Spiller Folding Cup Goggle. Beautifully designed and soundly made in Imshell or a variety of coloured plastics, the frame is glazed with Crookes tinted lenses. Spillers offer a wide range of sunglasses of all kinds.
