OPTICIANS

MORTON PATTERN (NON-LUMINOUS) OPHTHALMOSCOPE. WITH FOUR MIRRORS.

The movement is exceptionally smooth and precise. The small reversible mirror is especially designed to give a brighter image and a wide lateral range. The aperture is not drilled and edge reflections are entirely eliminated.

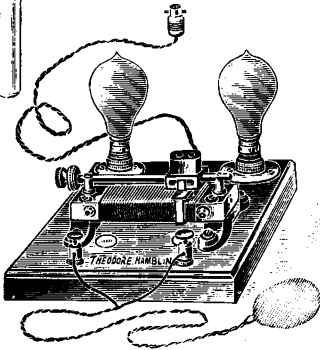

Price complete, £6 . 17 . 6

MORTON LUMINOUS OPHTHALMOSCOPE.

This instrument embodies many new features of decided advantage. It is constructed to withstand hard use.

Price complete in case with three transilluminators
£12 . 12 . 0

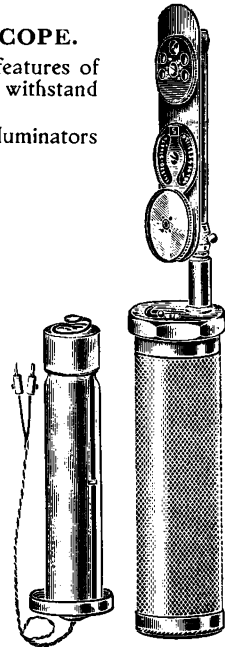

This ophthalmoscope may be provided with a simple adapter, which, inserted in place of the battery, enables the instrument to be used with an accumulator, or, if through a resistance, direct from the house current. A suitable resistance is provided by the

MADDOX EYE- WARMING COMBINATION.

THE MADDOX EYE-WARMING COMBINATION.

The combination affords an easy and effective method of applying to one or both eyes, continuous warmth, the amount of which is under full control.

Price complete, with two pads, £4 . 4 . 0
