Minims™

STERILE-SINGLE DOSE EYE DROPS

There are twenty-four presentations in the Minims single-dose range, each one selected for its usefulness in day to day clinical situations.

Minims solutions are sterile and, because of the over-wrap and special cap closure, remain so right up to the moment of application. No preservatives are included in the formulations.

P.L. 33/5000-5006, 5008-5021, 48, 50, 55, 73.

Mydriatics and Cycloplegics
