

In keeping with our philosophy of supplying only top quality equipment, Keeler are now the exclusive distributors for TOPCON.

Providing simpler operation and greater patient comfort, the Topcon TRC-60 AVT from Keeler is by far the most advanced variable angle retinal camera in the range. This newest model incorporates automatic exposure to ensure excellent photographic results every time. It provides 60°, 40°, 30° and 15° coverage for sharp results with minimal distortion.

- Automatic exposure system using spot or average light readings ensures optimum results.
- Integrated control box with easy-to-use controls and warning indicators.
- Automatic filtration for fluorescein photos.
- Only 4mm pupil dilation required at 15° and 30° coverage.
- Only 5.5mm pupil dilation required at 60° coverage.
