**THEODORE
HAMBLIN LTD
LONDON, W.1.
OPTICIANS**

**HAMBLIN'S
"1925"
ASTIGMATIC TEST.**

This subjective Test embodies the ideas of many Surgeons, the basis of it being a modification of the Maddox "V" Test incorporated with the new "grey background" of Friedenwald. The important factor of the amount of illumination falling on the chart has been considered, and the grey used is correct for an illumination of four foot-candles.

Price complete with cords, pulleys and wall blocks £4 5s.
Four foot-candle illumination, extra £1 15s.

Explanatory Pamphlet will be sent on application.

**Our Improved
Luminous "Morton"
Ophthalmoscope**
(Patented.)

Is a stride towards perfection. This instrument combines the improvements of previous models and in addition is arranged for easy conversion into non-luminous direct *and* indirect method. The luminous mirror arm is quickly removed and replaced by the non-luminous arm.

Price complete - £10 10 0
