Dear Reporting Ophthalmologist,

**RE: Study Of Endophthalmitis Following Vitrectomy,
In Association With The British Ophthalmic Surveillance Unit (BOSU)**

Thank you for reporting a patient with presumed infectious endophthalmitis following pars plana vitrectomy to BOSU 6 months ago.

Included with this letter is the final, follow-up questionnaire. We would be grateful if you could please complete and return this questionnaire in the **reply paid envelope**.

This BOSU study aims to determine the incidence, clinical presentation, risk factors, management and outcome of endophthalmitis following pars plana vitrectomy.

The patient will not be contacted and their management is not affected by this observational study. All clinical details will be anonymous with regard to the patient, clinician and hospital.

We appreciate the time you have taken to report this important case,

Yours sincerely,

Jon Park, Balasubramanian Ramasamy, Roland Ling, Som Prasad.
